

CONCEPT III

... an ILS* with the feel of the Desktop and the flexibility of the Web

- Browser-based (Chrome, Edge, FireFox, Safari ...)
- All-platform (Windows, Mac, Apple iOS, Android, linux ...)
- All device (desktop, laptop, tablet, smart phone ...)
- Multi-user (one collection accessible by many users simultaneously)
- Web-accessible public Catalog (browse-style & word-search)
- Secure logins give anywhere, anytime access to library staff
- Console-like responsiveness

Evolved from the highly regarded applications *PC Card Catalog* and *CONCEPT I*, **CONCEPT III** carries on the tradition of "intuitive and easy-to-learn." The web-based system easily meets the demands of today's smaller, innovative library.

From *any browser, anywhere* open the patron Catalog (OPAC.) Use the Word Search option with its Google®-like interface. Or select one of the *browse-style* catalogs (Author, Title, Subject) with its closest guess, never-miss search feature.

Your library staff can login to access a wealth of librarian activities including processing, cataloging, check in-out, printing labels, stats, and reports. The advanced capabilities reflect Library Concepts' 35+ years of library system design experience:

- Instant ISBN Cataloging
- Author, Subject, Publisher Authorities
- Series and Series Title linking
- Efficient Inventory (enhanced for multi-users ...
"fast" becomes "extremely fast!")
- Barcode Check Out and Inventory
- Receipt Printer support
- Print Labels with preview-before-print and partial-sheet support

* **ILS:** Integrated Library System - a computer application that includes features for processing/cataloging, circulation, reports, labels, and catalog searching (OPAC)

- Print Spine & Pocket labels plus standard & "descriptive" Barcode labels
- Unattended checkout
- Import text or MARC
- One-screen Check Out/In ... handles everything 'circulation'
- Browse-style Catalogs maintain AACR2 order ... automatically!
- Track History; View a patron's *history* instantly on-screen
- Enhanced Reports; Create a report and preview its PDF onscreen; Select all or just a few pages to print. (Item Usage, Overdues, Shelf, Author, Collection, Patron lists, to name a few)
- Searchable AR/ATOS/Lexile fields
- Email or print overdue and fine notices
- Colorful book cover Images in Catalogs (optional add-on)
- Powerful *Word Search* Catalog handles full- and partial text, ALL or ANY word matches
- Catalog searches show copy statuses, series groupings, analytic titles and authors.
- Daily Backups; Automatic application updates
- Libby®, OverDrive®-compatible authentication for ebook checkout (optional add-on)
- Built-in HELP; Online video Tutorials
